*Have a fun and safe summer at our
beautiful Silver Lake!*

A Message from The Board

As Midwesterners, we love our four seasons, yet nothing quite matches the feelings we all experience when Spring arrives knowing Summer will follow. We are all excited as another season is about to kick-off at our beautiful park. Our priorities remain in place, safety of our guests, fiscal responsibility and remaining true to the trust.

Our infrastructure repairs have stabilized the lakefront in the park. We were also able to create two ADA compliant picnic pods for those who require easy access. When you visit this season, you will notice significant maintenance and repairs that have taken place this winter. A walkway between the boathouse and fishing dock will create a safe passage and keep pedestrians out of the parking lot. Pod 1 was modified with a walkway and provides the second ADA compliant picnic area. The parking lot has been re-surfaced and now has concrete curbing, replacing old timbers.

Once again assessments were essentially frozen for the 3rd year in a row. A 5-year summary and analysis of income and expense is included in the booklet. It should be noted that 75 cents of every dollar we provide goes to basic operations of the park, ie., payroll, utilities, and basic maintenance. The remainder goes toward major repairs to keep our park in good condition.

Water quality has been a major issue and success over the past 5 years. Lake safety and water clarity are the best they have been in years. The expense and systems we have put in place have paid off. As part of our parking lot project, a rain garden was installed to provide a mechanism for parking lot run-off to be filtered before entering the lake. We are hoping many lakeside residents will adopt this approach on their property. Water quality remains a priority.

Included with this year's lake booklet is a survey. Some of you may have received an invitation to participate in a Survey Monkey sent by the Silver Lake Preservation Society. We ask that you fill out the Trustee Survey included in this booklet as we need your feedback. We need your feedback as to how we can make the park even better. Please take a moment to tell us what you think and how we can improve. You can identify yourself or not – we just want to hear from as many people as possible. Take some time with your family to review the booklet and plan to participate in as many events as possible. There is something for every member of your family.

We look forward to another safe and fun-filled summer at the lake.

Fishing Report

by Cliff Morrison

In Mid November 2017, we stocked the lake with 125 Walleye 4-7 inches, 340 Yellow Perch 6-8 inches, 340 Crappie 3-4 inches. We still have a good population of gizzard shad to feed the bass and walleye population.

Good luck during this 2018 fishing season here at Silver Lake. It should be a good one!

*Please remember, there is still an overpopulation of carp, bluegill, and channel catfish as well as evidence of white perch, all of which should **not** be released back into the lake. Your cooperation in this will be very much appreciated!*

Fishing Limits: Walleye 15" 2 per person

Northern Pike - Catch and release all

Bass - up to 14" - Five per person

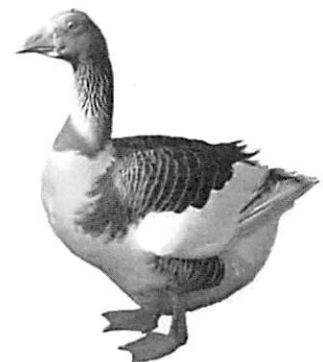

Bass - 14" to 18" - Catch and release all

Bass - over 18" - Keeping is optional/release is preferred

Small Mouth Bass - Any size MUST be released

Just a reminder...

Please do not feed the ducks or the geese! Your cooperation is appreciated Thank you!!
